

3SG Awarded National Contract by Broadlane

Effective June 1, 2008, 3SG Corporation, www.3sg.com, has a National Contract (# GT-217) to offer its document management and imaging services to the clients of Broadlane. 3SG Corporation, based in Dublin, Ohio, is a certified minority-owned company and received this contract under the Broadlane Supplier Diversity program.

3SG has successfully saved its customers millions of dollars while converting a total of over ½ billion images at client sites and its three production facilities. 3SG has the right conversion solution, whether the customer needs to convert documents to a new Enterprise Content Management (ECM) solution or an electronic medical record system, centralize and digitize records to assist with pending Joint Commission accreditations/audits or simply want to improve the access to critical documents. The production processes are consistent with HIPPA guidelines.

3SG is also an authorized reseller of OnBase, a full-featured ECM solution created by Hyland Software that offers robust healthcare-specific functionality to manage business activities, store medical records or even drive an entire medical practice. OnBase improves the efficiency and reduces the costs surrounding Revenue Cycle Management and other line of business applications. It seamlessly integrates with existing software applications and has the exclusive endorsement of the American Hospital Association. OnBase is rated in the Top 10 by KLAS and is being used by over 7,200 customers internationally.

3SG staff looks forward to working with all Broadlane clients. For further information, please contact:
